Professional Summary

Frontend Developer with 2+ years of hands-on experience building responsive, high-performance web applications using **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS**. Experienced in developing reusable component architectures, implementing modern UI/UX patterns, and optimizing frontend performance and accessibility. Strong understanding of **state management, REST API integration**, **Firebase**, **SEO** best practices, and production deployments. Proven ability to translate business requirements into scalable, user-focused interfaces and deliver production-ready applications in collaborative environments.

Skills and Technologies

- **Programming Languages:** JavaScript (ES6), TypeScript
- **Frontend Development:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design
- **State & Data:** Firebase, Firestore & Auth, React Hooks, Context API, REST APIs
- **UI/UX & Performance**: Reusable Components, Accessibility, Animations, Dark/Light Theme, Cross-Browser Compatibility
- **Tools & Deployment:** Git, Github, Visual Studio Code, Chrome DevTools, Vercel
- **Performance Optimization:** Core Web Vitals, SEO, Static Site Generation, Server-Side Rendering(SSR)

Experience

Front-End Developer | PureCode AI – Hyderabad **October 2023 – Present**

- Contributed to the development and enhancement of the Purecode AI platform website using Next.js and Tailwind CSS, focusing on clean UI, responsiveness, and usability.
- Built and maintained reusable, component-based UI elements to support scalable development and consistent design across multiple product pages.
- Worked on key product sections including Discover page, Share Component flow, Enterprise pages, and Invite workflows, improving user navigation and interaction.
- Implemented on-page SEO improvements by analyzing site structure and performance using Screaming Frog, optimizing metadata and page structure for better search visibility.

Projects

OpenThoughts — User-Generated Content Platform GitHub Repo | Live

Tech Stack: Next.js, React.js, Firebase (Firestore & Auth), Tailwind CSS, SEO

- Built a fully responsive content platform with **Next.js** and **React**, implementing reusable components and modular architecture for scalability.
- Integrated **Firebase Firestore and Authentication** to manage posts, user interactions, and admin approval workflows with real-time updates.
- Implemented **category-based browsing**, **pagination**, **likes**, **comments**, and **author pages** to improve user engagement and content discoverability.
- Optimized frontend for **SEO**, **performance**, and **accessibility**, including dynamic metadata, sitemap generation, robots configuration, and production deployment on Vercel.

Bombay Facility Services (BFS) — Company Website GitHub Repo | Live

Tech Stack: Next.js (App Router), TypeScript, Tailwind CSS, Framer Motion, Nodemailer, Vercel

- Developed a responsive company website using **Next.js**, **TypeScript**, and **Tailwind CSS**, delivering a clean, accessible, and user-friendly interface across all devices.
- Built **reusable UI components** and pages including service listings, career cards, image galleries, and dynamic routes using **Next.js App Router** and component-based architecture.
- Implemented interactive frontend features such as **animated page sections (Framer Motion)**, dark/light theme switching (**next-themes**), and modal-based image galleries.
- Integrated multiple frontend forms (Contact, Quote, Job Application) with **form validation**, **file upload handling**, **API integration**, and **user feedback states**, improving user engagement and usability.

Personal Portfolio Website GitHub Repo | Live

Tech Stack: Next.js, TypeScript, Tailwind CSS, Framer Motion, Nodemailer, Vercel

- Built a **component-driven portfolio with Next.js** and **TypeScript**, showcasing projects, skills, and professional experience.
- Implemented **smooth animations** and **interactive UI elements** using Framer Motion and **Swiper.js** without compromising performance.
- Developed a custom **dark/light theme system** with persistent user preferences using CSS variables and localStorage.
- Integrated a functional contact form with **API handling** and **Nodemailer**, optimized for production deployment on Vercel.

Education

Bachelor of Technology (Computer Science and Engineering)
Pranveer Singh Institute of Technology, Kanpur
CGPA – 7.16 | 2019 – 2022

Diploma (Computer Science)
Government Polytechnic, Pratapgarh
Percentage – 72.11 | 2016 - 2019
