Professional Summary

Detail-oriented **Frontend Developer** skilled in building responsive, reusable, and user-centric web components using **HTML**, **CSS**, **JavaScript**, **React.js**, and **Tailwind CSS**. Proven expertise in optimizing UI performance and ensuring design consistency across various devices. Strong collaboration with cross-functional teams to deliver high-quality, scalable web applications. Adept at identifying and resolving **UI/UX** issues to enhance user experiences.

Skills and Technologies

- **Programming Languages:** JavaScript (ES6), HTML5, CSS3
- **Frontend Frameworks:** React.js, Tailwind CSS, Responsive Web Design
- **Backend Technologies:** Node.js, Express.js, RESTful APIs
- **Databases:** MySQL, MongoDB, Firebase
- **Version Control:** Git, GitHub
- **Tools & IDEs:** Visual Studio Code, Chrome DevTools, ESLint, Prettier
- **Deployment:** Vercel, Netlify
- **Other Skills:** Agile Methodology, Problem Solving, Collaboration, Documentation

Work History

Front-End Developer | PureCode AI – Hyderabad **October 2023 – Present**

- Delivered responsive UI components using **React.js**, improving usability and reducing layout issues by 40%
- **Validated** and optimized 50+ reusable components, ensuring consistent design and adherence to standards, improving deployment efficiency
- Collaborated on **MERN stack** projects, integrating **backend APIs** and ensuring mobile-first designs
- Utilized Git and GitHub for version control, ensuring seamless teamwork with a 6-member development team
- Authored and maintained internal documentation, improving team workflows and reducing errors
- Ensured smooth integration of **UI components**, leading to faster development cycles and improved user engagement

Projects

Bombay Facility Services (BFS) – Company Website
GitHub Repo | Live

- Developed a fully responsive website with **React** and **Tailwind CSS** to showcase services and contact options
- Integrated contact form workflows with **Nodemailer** and a minimal **Express.js** backend for email notifications
- Designed a smooth, interactive user interface with **multi-tab navigation** and modals, improving user engagement
- Deployed on **Vercel** for optimal performance across devices

Recipe Finder App
Github Repo | Live

- Developed a responsive Recipe Finder app using **React.js** and Tailwind CSS, enabling users to search for recipes with a clean, mobile-first interface
- Integrated an external **recipe API** to fetch data and display detailed recipes in a user-friendly layout
- Enabled seamless user interaction: clicking on any recipe redirects to YouTube for video tutorials
- Deployed the app on **Vercel** for optimal performance and fast access across devices

Shop Nest – E-commerce Product Display App
GitHub Repo | Live

- Created a product display app using **HTML**, **CSS**, and **JavaScript**, fetching data from an external API
- Designed an interactive layout using **CSS Grid** and **Flexbox** for a clean, consistent presentation
- Integrated basic user authentication for account creation and login functionality
- Optimized the app for **performance** and **accessibility** on all devices

Education

Bachelor of Technology (Computer Science and Engineering)
Pranveer Singh Institute of Technology, Kanpur
CGPA – 7.16 | 2019 – 2022

Diploma
Government Polytechnic, Pratapgarh
Percentage – 72.11 | 2016 - 2019
